REKKER MORPH PRO

The Sherwood REKKER MORPH Pro Stick is for goal scorers who want to bring quickness, deceptiveness, and precision to their game. The lightest REKKER stick ever created, the Morph Pro stick combines both an ultra-light feeling stick with unmatched performance on the ice. The Dual Carbon Frame Technology when paired with the Featherlite XT balance point provides players with a great feeling in the hands. The Ergo Taper Shaft features 3 distinct zones to maximize comfort, mobility, and power. The Duo-Fire Low Kickpoint allows goal scorers to load and release shots quickly with maximum velocity. For durability, the VR92 dampening technology enhances the strength of the blade without sacrificing feel. The Blackline XXV carbon fibre weave featuring Pyrofil built by Mitsubishi throughout the stick will give elite players the performance and durability they crave. The REKKER Morph Pro stick is built for the goal scorers looking to light the lamp every time they step on the ice.

FEATURES

- Ultralight 365g (60")
- DCF - Dual Carbon Frame technology
- Pyrofil by Mitsubishi Blackline XXV carbon fibre
- VR92 blade dampening material
- ETS - Ergo taper shaft
- Low kickpoint with Duo-Fire secondary kickpoint
- Featherlite XT balance
- Corner tactile grip

CODE ENCRYPT PRO

Unleash your potential! Strategically created with the elite playmaker in mind, the CODE Encrypt Pro stick is built for performance. The lightest CODE model ever made is equipped with a perfectly balanced hybrid kickpoint. A new advanced composite lay up ensures exceptional puck handling and shooting, because we know you can do both. Featuring the state-of-the-art ergonomic EVT shaft shape, creating energized power transfer for puck distribution accuracy and the ultimate confidence on the ice. The new re-engineered blade profile features the VR-92 internal dampening laminate to reduce vibration in key impact zones. The BlacklineXXV carbon fibre weave features 25,000 filaments in a square inch of the sticks outer shell improving strength and reducing weight. The CODE Encrypt Pro stick is unmatched in power, precision and control, making it the ultimate instrument for top-tier players worldwide.

PLAYRITE

SHERWOOD
PLAYRITE

With four different sizing options, the stick lengths and flex levels fit youth players as they grow, enabling them to improve their shots and help them to enjoy the game.

IMPROVE YOUR SKILLS

Give your child the ability to learn how to properly load the stick and improve their shot and stick-handling skills at a young age.

ENJOY THE GAME

Hockey is a fun game and could be even more fun for your child with the proper gear tailored for young players!

FLEX YOUR STICK

A stick that a youth player can flex!

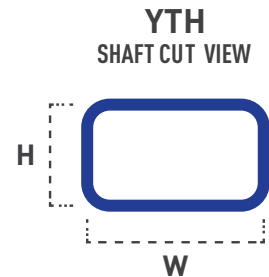

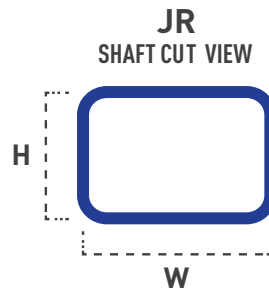

PLAY SAFE

Reduce the risk of injuries by using the proper stick length and flex.

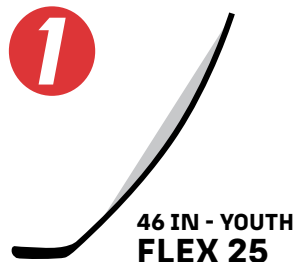

SHAFT GEOMETRY

PLAYRITE 0 & 1 feature our youth geometry.
PLAYRITE 2 & 3 are built with a junior shaft size.

The shafts corners are more rounded than a senior stick to create better puck feel for small hands.

FLEXES

PLAYRITE

FEATURES

- Designed to maximize a young players grip strength, fit comfortably and help avoid unwanted rotation while passing or shooting.
- Length specific flex - specifically tuned for the optimum shaft flex depending on the players height.
- Age specific blade size and pattern to help improve puck control and shooting skills.
- Product Education for Parents - The Playrite series has been designed to match with a player's height and weight so parents can easily decide which stick is right for their young superstar.

The elite playmaker needs equipment that enhances their game rather than hinders it, and the tapered fit CODE Encrypt 1 shoulder pad does just that. The 360°Wrap strapping system, paired with CIP customizable bicep height and removable belly pad creates a sleek, tapered design to ensure the equipment doesn't get in your way. Crafted for elite players, these shoulder pads come packed with advanced features. They boast Viconic protection at the shoulder joint for top-notch safety. Incorporating Microban® antimicrobial material, they actively combat odor-causing bacteria. Plus, their Featherlite X technology, featuring 3D textile and perforated material, ensures superior airflow and unmatched comfort. These advanced technologies come together to create the ultimate shoulder pad without sacrificing a player's protection or movement.

AIZ ANATOMICAL ISOLATED ZONES

Anatomically Isolated Zone (AIZ) protection provides a combination of mobility and protection. Each zone enables players to move with ease while getting maximum protection. The zones maintain a level of protection while stretching to fit the players' anatomy and movements so you move as one.

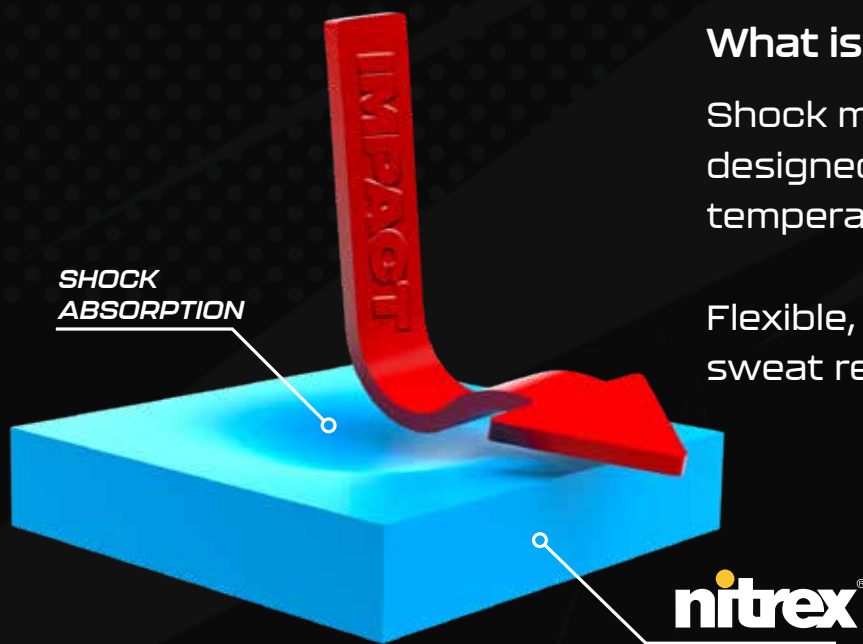

360° WRAP

Strapping system is designed to bring new capabilities to an ordinary strap. Straps in key areas are elongated and tapered to contour the body and provide a secure and harness like fit.

nitrex®

THE ULTIMATE SHOCKPROOF PROTECTION

What is Nitrex®?

Shock mitigating engineered foam designed for repeat impacts at various temperatures.

Flexible, lightweight, waterproof, and sweat resistant.

How does Nitrex® work?

Nitrex® has a distinctive, patented, closed cell viscoelastic structure. The unique formulation creates a foam that is versatile, light, waterproof, and flexible. Nitrex® provides excellent repeat impact shock absorption, low resilience, and dissipates energy. The design allows for better performance across a large temperature range versus a traditional foam.

MICROBAN®

Microban® technology provides an extra layer of defense against unpleasant odors, stains and deterioration caused by bacteria. It ensures that this product stays fresher, longer.

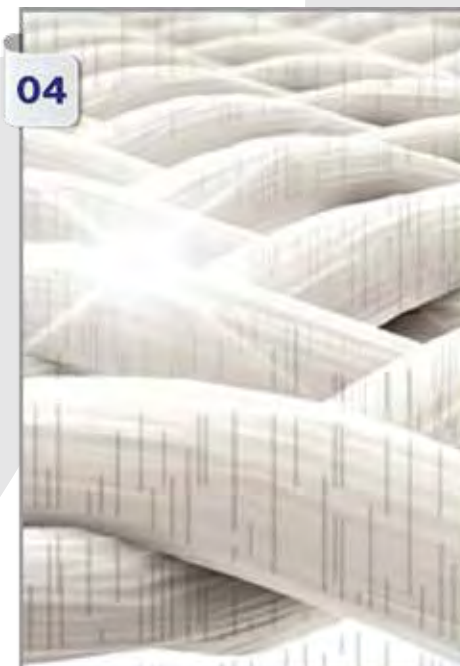

Microban technology is infused into the fibres.

Bacteria are attracted to the treated fibres.

Microban technology punctures the bacteria's membrane, creating the inability to sustain life.

Without healthy membrane, bacteria dies and can no longer create odor or stains.

REKKER MORPH

BUILT TO SCORE

THE REKKER FAMILY IS BUILT TO SCORE. FOR THE PLAYER WHO REIGNS OVER GOALIES WITH LIGHTNING QUICK HANDS AND A RELEASE YOU'LL NEVER EXPECT UNTIL IT'S TOO LATE. AN EXTREMELY LOW KICKPOINT COMBINED WITH A FEATHERLIGHT WEIGHT DESIGN ALLOWS PLAYERS TO FILL THE SCORE SHEET EVERY TIME THEY HIT THE ICE.

STICK

- Quick release
- Low kick
- Ergonomic shaft shape

GLOVE

- Anatomical
- 360 coverage
- High impact resistance

PROTECTIVE

- Anatomical
- 360 coverage
- High impact resistance

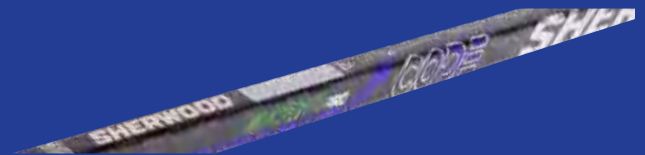

CODE ENCRYPT

DESIGNED FOR THE PLAYMAKER

CODE IS DESIGNED FOR THE PLAYMAKER. YOU'LL KNOW WHEN YOU'RE ON THE ICE WITH A CODE ATHLETE – THEY'LL BE THE ONES INVOLVED IN EVERY PLAY, MAKING YOU RETHINK PUTTING ON SKATES THAT NIGHT. IN ADDITION TO THEIR PLAY-MAKING ABILITY, THE CODE ATHLETE WILL BE THE PLAYER WITH THE DRIP – GIVING YOU A LITTLE SWAG WHILE MAKING IT LOOK EASY. JUST WHEN YOU THINK YOU'VE FIGURED THEM OUT, THEY'LL SHOW YOU SOMETHING YOU'VE NEVER SEEN BEFORE ALL WHILE LETTING YOU KNOW.

STICK

- Power
- Hybrid kick
- Traditional shaft shape

GLOVE

- Tapered
- Mobility
- Essential impact resistance
