BAUER CONCEPT 3 SPLASH GUARD - 2 PACK 1059458

New
Protection
Air Flow
How to Use
Care Instructions
To Disinfect

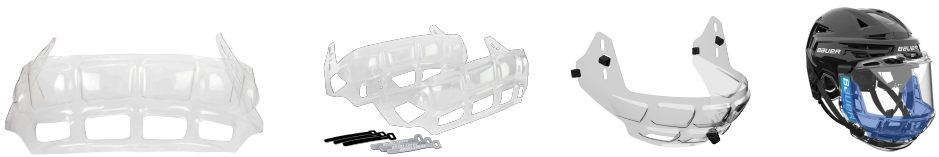

The new Bauer Concept 3 Splash Guard is designed to fit onto the Bauer Concept 3 visor to reduce the spread of respiratory droplets. It's been created to protect against droplets from sweat, coughs and sneezes, while still ensuring optimal breathability.

The air flow created while skating will help reduce the possibility of your visor fogging, allowing you to focus on the game.

Place the insert behind your Concept 3 visor aligning with the corresponding embosses and apertures. Secure the insert in place using the three attachment straps.

Clean and sanitize this product before every use. Wash with soap and warm water. Rinse with warm water and allow to air dry.

It is recommended to use a solution of isopropyl alcohol or ethanol with a concentration of at least 70% alcohol.

HOW TO MEASURE

- For best results, take measurements over undergarments.
- Hold tape measure firmly, not tightly.
- Keep tape measure parallel to the floor.
- Match your measurements to the above size chart. If measurements fall between sizes: order smaller size for tighter fit or the larger size for a looser fit.
- If measurements for chest and waist correspond to two different suggested sizes, order the size indicated by the chest measurement.
- Each material should indicate what silhouette/fit is used (e.g. slim/modern, hockey fit, loose fit), so if it's a slim fit and you normally like a looser fit, you should order up a size.
